BUSTER + PUNCH  
LONDON

# BUSTER + PUNCH

LONDON

BUSTER + PUNCH's love for working with rare, solid metals has led them to transform everyday functional fittings into extraordinary home details.

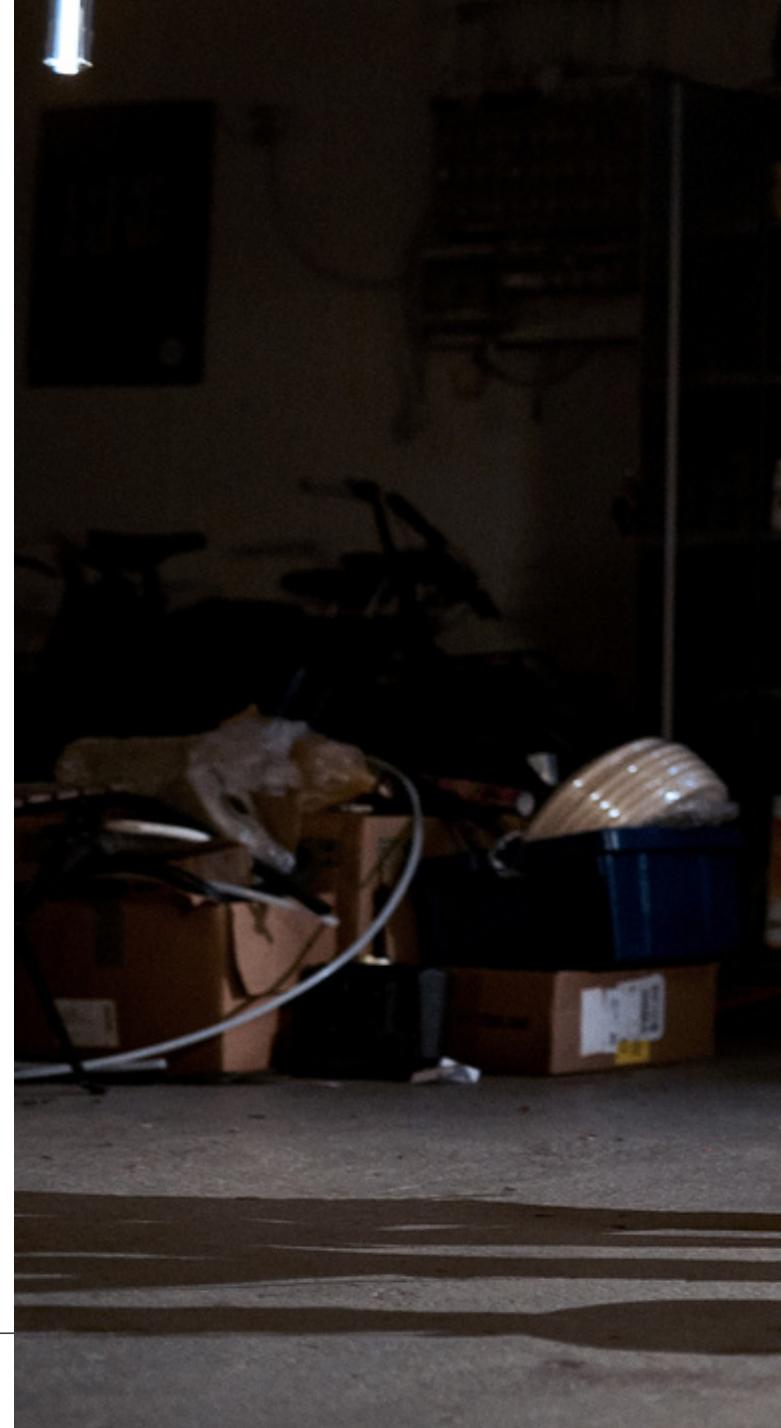

From the light bulb, the dimmer switch and the pendant lamp to the door handle and the cabinet pull, they are constantly creating an innovative collection of unforgettable design details.

Their work is inspired by London's fashion, music, and sub-culture scenes where they collaborate with street artists, bike builders, and fashion designers to inject attitude into their crafted products.

AIX-EN-PROVENCE

# LES JARDINS®

AIX-EN-PROVENCE

LES JARDINS has been manufacturing luxury outdoor furniture for thirty years, using our environment to inspire and forge their iconic designs – because nature never goes out of style. Our high efficiency solar lighting harnesses energy from the sun and infuses it into an Autonomous Solar Bulb -ASB.

This ingenious light source is interchangeable between all lamps and lanterns, generating between 300 to 500 lumens of warm light (3000K). Depending of the version. The LED cast various gradients of light that can be dimmed to your liking.

A photograph of a modern floor lamp in an outdoor garden setting at night. The lamp has a tall, thin wooden tripod base and a large, conical shade made of vertical wooden slats. The lamp is illuminated, casting a warm glow. In the background, a rough stone wall is visible, and the sky is dark blue. In the foreground, there are green plants and a dark wooden table with a plate of oranges on it.

The Scala collection is inspired by traditional Chinese design elements, by the gentle lines and flowing forms of traditional Chinese “Hanfu” clothing. The result is a graceful expression of authentic values in a modern and elegant composition. The collection features a signature designed chair with two overlapping arcs inspired by the “Hanfu” sleeve design, united by vibrant rope weaving delivering luscious colours and rich textures. The accompanying tables add a robust presence to the ensemble. The accompanying tables add a robust presence to the ensemble.
